

# RECHNEN BIS 20

Wie viel Kreise fehlen, damit du genau 20 Stück hast?

$$17 + \square = 20$$

1 Ergänze alle Rechnungen auf 20!

$$18 + \square = 20$$

$$11 + \square = 20$$

$$20 + \square = 20$$

$$13 + \square = 20$$

$$19 + \square = 20$$

$$12 + \square = 20$$

$$10 + \square = 20$$

$$14 + \square = 20$$

$$15 + \square = 20$$

$$16 + \square = 20$$

$$17 + \square = 20$$

$$13 + \square = 20$$

Wenn du 7 Kreise wegstreichst, wie viele Kreise bleiben dir dann noch?

$$20 - 7 = \square$$

2 Nimm von 20 weg!

$$20 - 3 = \square$$

$$20 - 10 = \square$$

$$20 - 5 = \square$$

$$20 - 9 = \square$$

$$20 - 6 = \square$$

$$20 - 7 = \square$$

$$20 - 4 = \square$$

$$20 - 8 = \square$$

$$20 - 4 = \square$$

$$20 - 2 = \square$$

$$20 - 1 = \square$$

$$20 - 6 = \square$$
