

Calculs en Pyramide

① ③ ⑤ ③ ② ①

Complète les cases blanches.

Dans la zone supérieure se trouve toujours la somme des 2 cases inférieures. En bas à gauche et droite se retrouvent toujours les mêmes chiffres que la case gauche et droite de la ligne juste au-dessus.

A vos méninges !

The puzzle consists of three pyramids. The top pyramid has 5 rows. The first row has the number 114. The second row has 56 and a blank space. The third row has two blank spaces. The fourth row has three blank spaces. The fifth row has four blank spaces. The bottom-left pyramid has 4 rows. The first row has 11 and a blank space. The second row has a blank space and 22. The third row has two blank spaces. The fourth row has three blank spaces. The bottom-right pyramid has 4 rows. The first row has a blank space and 30. The second row has 22 and a blank space. The third row has two blank spaces. The fourth row has three blank spaces. The entire puzzle is surrounded by circled numbers: 1, 2, 3, 4, and 5.
